

C4C FIELD VISITS 2024

Budapest

MAKERSPACE CREATIVE COMPANY

Makerspace Creative Company is a dynamic hub dedicated to fostering innovation and collaboration in the creative industry. By providing cutting-edge tools, resources, and a collaborative environment, they empower individuals and teams to bring their creative visions to life.

METEOROLOGICAL STATION

The meteorological station in Budapest plays a crucial role in monitoring and analyzing weather patterns for the city and surrounding region. Equipped with advanced instruments, it provides accurate forecasts, climate data, and essential information to help residents and businesses plan for various weather conditions.

SOUTH-PEST WASTEWATER TREATMENT PLANT

The South-Pest Wastewater Treatment Plant in Budapest is a crucial facility for managing and treating wastewater in the region. Equipped with advanced technologies, it ensures the effective purification of sewage before it is released back into the environment, helping to protect water quality and public health.

PÜNKÖSDFÜRDŐ PARK

Pünkösdfürdő Park combines natural beauty with ecological value. This thoughtfully designed green space incorporates sustainable practices, including native plantings and eco-friendly features, to enhance local biodiversity and improve urban air quality.

AURÓRA CLIMATE GARDEN

Auróra Climate Garden in Hungary is a unique environmental initiative focused on promoting sustainability and climate awareness. Set within a beautifully designed green space, it serves as an educational and recreational venue where visitors can explore innovative solutions for climate adaptation and environmental management.
